İSTİKLAL MARŞI

Korkma, sönmez bu şafaklarda yüzen al sancak;
Sönmeden yurdumun üstünde tüten en son ocak.
O benim milletimin yıldızıdır, parlayacak;
O benimdir, o benim milletimindir ancak.

Çatma, kurban olayım, çehreni ey nazlı hilâl!
Kahraman ırkıma bir gül! Ne bu şiddet, bu celâl!
Sana olmaz dökülen kanlarımız sonra helâl
Hakkıdır, Hakk'a tapan, milletimin istiklâl!

Mehmet Âkif ERSOY

ATATÜRK'ÜN GENÇLİĞE HİTABESİ

Ey Türk gençliği! Birinci vazifen; Türk istiklalini, Türk cumhuriyetini, ilelebet muhafaza ve müdafaa etmektir.

Mevcudiyetinin ve istikbalinin yegâne temeli budur. Bu temel, senin en kıymetli hazinedir. İstikbalde dahi seni bu hazineye mahrum etmek isteyecek dâhilî ve haricî bedhahların olacaktır. Bir gün, istiklal ve cumhuriyeti müdafaa mecburiyetine düşersen, vazife atılmak için içinde bulunacağın vaziyetin imkân ve şeraitini düşünmeyeceksin. Bu imkân ve şerait, çok namüsaî bir mahiyette tezahür edebilir. İstiklal ve cumhuriyetine kastedecek düşmanlar, bütün dünyada emsali görülmemiş bir galibiyetin mümessili olabilirler. Cebren ve hile ile aziz vatanın bütün kaleleri zapt edilmiş, bütün tersanelerine girilmiş, bütün orduları dağıtılmış ve memleketin her köşesi bilfiil işgal edilmiş olabilir. Bütün bu şeraitten daha elim ve daha vahim olmak üzere, memleketin dâhilinde iktidara sahip olanlar, gaflet ve dalalet ve hatta hıyanet içinde bulunabilirler. Hatta bu iktidar sahipleri, şahsi menfaatlerini müstevlilerin siyasi emelleriyle tevhit edebilirler. Millet, fakrızaruret içinde harap ve bitap düşmüş olabilir.

Ey Türk istikbalinin evladı! İşte, bu ahval ve şerait içinde dahi vazifen, Türk istiklal ve cumhuriyetini kurtarmaktır. Muhtaç olduğun kudret, damarlarındaki asil kanda mevcuttur.

Mustafa Kemal Atatürk

2.

	Sheila	Oliver	Bianca	Arthur
Age	13	14	17	15
Height	152 cm	157 cm	169 cm	163 cm
Weight	45 kg	48 kg	52 kg	51 kg

According to the chart above,

- A) Bianca is taller but heavier than Oliver and Sheila
- B) Arthur is shorter but younger than Sheila
- C) Oliver is older but slimmer than Arthur and Bianca
- D) Bianca is younger but fatter than all of others

3.

Tim refuses to change his decisions or plans and he thinks he is always right.

Emily always wants to reach her goals and be successful, so she studies hard.

Brian always does a lot of sports and works hard at the gym to keep himself fit.

Daisy likes spending money for her friends, so she usually buys them things.

According to the information above, which option is not correct?

- A) Brian is energetic.
- B) Emily is smart.
- C) Daisy is generous.
- D) Tim is stubborn.

4. **Hannah:** Have you got a sister, Lauren?

Dorothy: Yes, I have. She is called Jamie.

Hannah: What is she like?

Dorothy: She is very patient.

Which of the following option is suitable to complete the dialogue?

- A) She waits for hours when I'm in the bathroom.
- B) She can't talk to people she doesn't know.
- C) She always wants everything for herself.
- D) She doesn't usually remember her duties.

5.

Riley has a sister called Sonia. She is twelve years old and he is fourteen years old. She can't touch his head. However, she is a bit plump. So, their parents want her to stay away from fast food and do more exercises. Riley is slim, but he goes cycling in the park four times a week to keep fit.

The text tells us that

- A) Riley is younger but fatter than Sonia
- B) Sonia is more active to be fit than Riley
- C) Riley eats healthy food less than Sonia
- D) Sonia is shorter and heavier than Riley

6. **Mom:** How was the school today?

Harold: It was pretty good. A student came to our class today. His name is Ryan.

Mom: Really? What does he look like? Did you have time to meet him?

Harold: Yes, he is of medium height and a little plump with short wavy light brown hair and hazel eyes. He is my new deskmate and I really liked him because he is tidy, friendly, outgoing and cheerful.

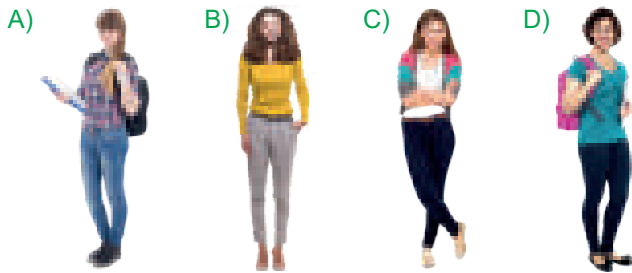

Mom: Great! I'm sure you will get on well with each other because you always tidy up your room and like funny people as you are. Also, you both like making new friends and hanging out with them.

According to the conversation above, Harold is

- A) messier and more shy than
- B) less cheerful, but tidier than
- C) friendly and outgoing as much as
- D) more friendly, but less outgoing than

7. **Amy:** My elder sister, Molly is tall and slim. She is pretty with long curly brown hair and green eyes.

Which picture shows Molly according to Amy's talk?

8. Gemma and Becky are cousins. Here are the information cards about their personal characteristics and physical appearances:

Gemma

- ★ 18 years old
- ★ cheerful and outgoing
- ★ likes going to concerts and surfing on the Internet
- ★ can make new friends easily

D) He died on the third of December, eighteen ninety – four.

3.

- I. He is known as “the man who discovered America” in history.
II. Christopher Columbus was an Italian explorer and his birth date is 1451.
III. But he never knew what an amazing discovery he had made.
IV. He would make three more voyages to the Americas to explore the New World.

Put the sentences into the correct order to make a meaningful text.

- A) I – IV – II – III B) II – I – III – IV
C) II – III – I – IV D) IV – I – II – III

4. **Cameron:** Where were you born, Margaret?

Margaret: I was born in Cleveland, the USA and I lived there until I was 18 years old. I won a scholarship at Princeton University in Chemistry in 1995, so I moved to New Jersey.

Cameron: Really? That’s unbelievable! I went to the same university to study physics between 1997 and 2001.

According to the dialogue above, what do Cameron and Margaret have in common?

- A) They were born in the same country.
B) They lived in Cleveland when they were young.
C) They studied different fields at the same university.
D) They were in New Jersey between the same years.

5.

Benjamin Franklin

He was not only one of the Founding Fathers of the United States of America, but he was also an inventor and scientist. Perhaps he is most famous for his experiments with electricity. He conducted his kite experiment to prove that lightning is in fact electricity.

Stephanie Kwolek

He invented the Kevlar in 1971. Kevlar is a kind of synthetic material, and it is five times as strong as steel.

According to the saying on the information notes,

- A) they both contributed to science with different things
B) they invented new things to make people’s life easier
C) both of them were discoverers in science history
D) they worked on the same field of science to invent something

6. James Watson was in York, England in 1867, but he in London. He to Jane Austen in 1898.

Which of the following words is not used to complete any of the blanks?

- A) born B) moved
C) got married D) grew up

7. **Victoria:** I have a project homework on Charles Dickens' biography. What do you know about him?

Matthew: He was a British successful novelist. Today there are lots of his works at libraries and bookshops.

Victoria: ?

Matthew: Yes. "Great Expectations", "A Tale of Two Cities" and "Oliver Twist" are his popular works.

Which question does Victoria ask Matthew?

- A) What kind of books did he write
- B) Why are his books so popular today
- C) Was he a literary author
- D) Did he read his own books

8.

Samuel Morse was born on 27th April, 1791 in Charleston, Massachusetts, the USA. He was an inventor of both the electric telegraph—a way to communicate over long distances and Morse code, a language he co-invented for communicating over the electric telegraph. He died in New York City on 2nd April, 1872.

In the text above, you cannot reach the information about Samuel Morse's

- A) place of death
- B) achievements
- C) date of birth
- D) education

9. **Naomi:** What are you reading, Pamela?

Pamela: Well, I'm reading the biography of Steve Jobs.

Naomi: Really? I think he was one of the most inspirational people in modern history because

Pamela: Yeah, I definitely agree with you.

Which of the following option is not appropriate to complete the dialogue?

- A) he proved to the world if you have an idea and you believe in it, then nothing else matters
- B) he thought that people can waste their time living someone else's life because it isn't limited
- C) his whole life and work are more inspirational than the technologies he gave to the world
- D) he was probably the best motivation for people who thinks defeats are the end of life

10.

Marie Curie was born in Warsaw, Poland on November 7, 1867. She grew up in Poland and had a general education in local schools, but she moved to Paris to continue her education. She graduated from the University of Paris in 1894. She got married to Pierre Curie on July 26, 1895. She discovered two new elements for the periodical table with her husband. She named one of the elements polonium and the other radium. In 1911, she won the Nobel Prize in Chemistry for discovering these elements. She was the first woman to win a Nobel Prize. All of her years, she worked with radioactive materials, so she lost her health. She died on July 4, 1934.

According to the text above, Marie Curie in nineteen eleven.

- A) took an award for her discoveries about radioactive elements
- B) enrolled at the University of Paris to study chemistry
- C) became ill because of her work on radioactivity
- D) began to live in a different country for her university education

11. Elvis Presley was a very talented rock music singer and he was so popular all around the world. He was born in Mississippi on the eighth of January in eighteen thirty five. He was very famous and rich, but unfortunately he was a lonely man. He was at the age of 42 when he died because of a heart attack.

According to the text above, which option shows Elvis Presley's date of death?

- A) 1877
- B) 1879
- C) 1897
- D) 1977

12. **Nancy:** What did you study at university?

Brenda: I studied chemistry.

Nancy: ?

Brenda: Because I like doing experiments and developing new drugs.

Find the question that Nancy asks Brenda.

- A) Why did you study chemistry at university
- B) Which university did you graduate from
- C) Why did not you choose chemistry as a career
- D) What did you do after graduating from university

1. Sir Alexander Fleming was a famous Scottish scientist. He discovered penicillin in 1928. He died on the eleventh of March, nineteen fifty-five.

Find the option that is related to the underlined phrase in the sentence.

- A) 1st of March, 1950 B) 21st of March, 1945
C) 11th of March, 1955 D) 11th of March, 1855

2.

Name	Safiye Ayla
Occupation	Singer
Date of Birth	September 13, 1907
Graduate	Bursa Çelebi Mehmet High School
Get married to	Şerif Muhittin Targan
Successes	Having more than 500 records Being one of Mustafa Kemal Atatürk's favourite singers
Date of Death	January 14, 1998

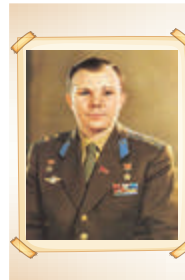

Which question is not answered in the table above?

- A) What was the profession of Safiye Ayla?
B) How old was she when she died?
C) What were her achievements in her career?
D) When did she graduate from high school?
3. I. Then she ordered the events in Stephen Hawking's life according to the dates of happening.
II. First, she did detailed research in the library and on the Internet to prepare it.
III. Emma had a project homework about the biography of Stephen Hawking last week.
IV. Finally, she presented it in the class.

Put the sentences into the correct order to make a meaningful text.

- A) III – I – II – IV B) III – IV – II – I
C) III – I – IV – II D) III – II – I – IV

4.

Yuri Gagarin was a Russian cosmonaut. He was the first man to travel into outer space and orbit the Earth. He was aboard the Vostok 1, his spacecraft, when it successfully orbited the Earth in 1961. He didn't fly in space again.

Valentina Tereshkova was a Russian cosmonaut and engineer. She was the first woman and civilian to go into space. In 1963, she spent almost three days in space and orbited the Earth 48 times in her space capsule, Vostok 6. That was her only trip into space.

According to the passages above, which one is not correct about the astronauts?

- A) They spent time in space with different spacecrafts in the same year.
B) They went into space only once and orbited the Earth.
C) They travelled into space for missions of the same country.
D) They were famous for being the first people in space.
5. Harold graduated from university last semester and decided to travel for a while before he started working. This chart below gives information about his trips in last two months.

Date	Place	Reason
7 th of June	Barcelona	Visit an old friend
21 st of June	Cairo	See pyramids
3 rd of July	Antalya	Do extreme sports
11 th of July	Rome	Discover historical places

Look at the chart and read the text above. Which of the following sentences is correct?

- A) He met an old friend in Barcelona after he went to Antalya.
B) He visited ancient places in Rome on the first of July.
C) He did extreme sports and saw pyramids on different dates.
D) He visited four different countries in the same month.

6. **Birth:** He was born on 18th July, 1918 in Mvezo, South Africa.

Education: He went to the College of Fort Hare. Then, he graduated from the University of Witwatersrand.

Family: He married three times and had six children.

Award:

This timeline above belongs to Nelson Mandela.

Which option is appropriate to fill in the blank?

- A) He won the Nobel Peace Prize in 1993.
- B) He served his country for sixty–seven years.
- C) He fought against racial differences in South Africa.
- D) He became the president of South Africa in 1994.

7. **William:** Leonardo Da Vinci wasn't just a great painter. He was also a sculptor, an architect, a poet, a composer, a scientist, a mathematician and an inventor.

Maggie: Leonardo Da Vinci drew pictures and designs of hang gliders, helicopters, war machines, musical instruments, various pumps, and more.

1. A(n) has wings, but it can't fly. So, it is a flightless bird. It uses its short, paddlelike wings as flippers for swimming. You can see the black and white color on its body.

Which picture is related to the word that completes the blank in the text above?

2. Tigers are larger than all other wild cats. They eat meat, so they are They usually hunt alone at night.

Complete the blank with the correct option.

- A) carnivores B) herbivores
C) heavy D) warm-blooded

3. Mammals are animals that have hair and are warm-blooded, which means they can regulate their body temperature. When baby mammals are born, they drink milk from their mothers. Mammals have different diets; some eat only meat, some eat only plants, and some eat both. Mammals can also have different ways of living. Some, like tigers, prefer to live alone and do things by themselves. Others, like lions, enjoy being part of a family group where they work together to find food and take care of their babies.

Which one is correct according to the text above?

- A) A mammal's body temperature never changes.
B) All mammals have the same eating habit.
C) Some mammals live in groups, some don't.
D) Most of mammals are herbivores.

4. Hello, my name is Thomas Hobbs. I'm an Africa safari guide. I enjoy watching wild animals in their natural habitat. But lions are my favourite. They seem harmless, but they can be very dangerous because they can attack people. They usually hunt at night and zebras are good prey for them. They usually work together to hunt their prey. They are really great hunters with their strong claws.

Which of the following option can we say according to the passage above?

- A) Lions prefer hunting alone in the jungle at night.
B) The African savanna is lions' natural habitat.
C) Lions are herbivores and harmless animals.
D) Thomas isn't interested in animals in the wild.

5. **Mammoths**
Kind: Mammal
Habitat: Forests and grasslands
Diet: Plants
Height: 4 - 5 m
Weight: 8 tons
Reasons of their extinction: Hunting - climate

We can understand from the information card above that mammoths

- A) weren't big and heavy animals
B) still live in forests and grasslands today
C) are endangered animals in the wildlife
D) were herbivores and gave birth their babies

6. The Asian elephants are enormous mammals. They are herbivores, too. They live in forests. They live for 50 years, but today they are becoming extinct because

Fill in the blank with the appropriate option.

- A) people hunt them for their tusks
B) they are in safe in their habitat
C) people don't preserve wildlife
D) people should definitely protect them

7. **Jason:** I need your help about my homework, Kylie. Can you give me some examples for wild animals?

Kylie: Sure. Tigers, lions, elephants, giraffes, wolves, monkeys and pandas are some wild animals. They live in jungles.

Jason: What about pets?

Kylie: People give them shelters or food. They need people to survive. Cats, dogs and canary birds are some examples of them.

According to the conversation above,

- A) wild animals and pets can survive everywhere by themselves
- B) pets and wild animals share the same natural habitat
- C) Jason has more information about wild animals than Kylie
- D) Jason wants Kylie to give information about wild animals and pets

8. Some animals became extinct and unfortunately, there are many endangered animals such as loggerhead sea turtles, African elephants, Sumatran orangutans and giant pandas. Human beings are responsible for most of the extinctions. However, we can protect the endangered ones. For that, we should

Complete the paragraph with the correct option.

- A) stop destroying their habitats to get new areas
- B) hunt them for their skins, fur or teeth
- C) pollute the environment with our trash
- D) not show respect to animals

9. Snakes are reptiles. They are poisonous, so they are dangerous. They are carnivores. There are two different types of snakes. One type lives in water and other type lives on land.

What can we say according to the text above?

- A) They are domestic animals.
- B) They only eat meat.
- C) They can't harm people.
- D) All of them have the same habitat.

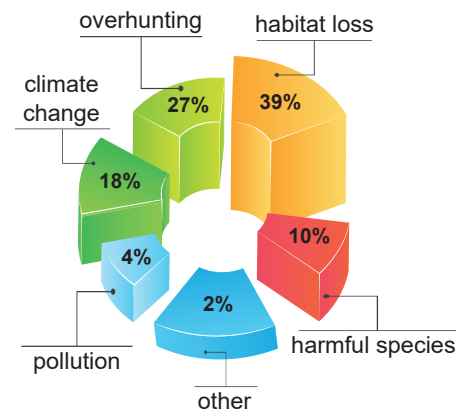

10. Reptiles have scales on their bodies, and most of them lay eggs. They are cold-blooded, which means they don't have a constant body temperature. They can be found in various places, like deserts, forests, and even in water. Some common examples of reptiles include snakes, turtles, lizards, and crocodiles.

Which of the following questions does not have an answer in the text above?

- A) Where do reptiles live?
 - B) How do reptiles reproduce?
 - C) What do reptiles eat?
 - D) Why do reptiles' body temperature always change?
11. Isaac joins the campaigns against killing animals for their fur, skins, teeth or sport every year. Because

Which one cannot we use to complete the blank?

- A) he thinks animal species are in danger
 - B) he is an animal lover and wants to protect them
 - C) all animal species can find new places to live
 - D) animals are necessary for the ecological balance of the Earth
12. The graphic below shows the results of a study on some major causes of extinction of animal species.

According to the results, we should first

- A) make campaigns to protect the animal species
- B) prevent killing animals for their skins or tusks
- C) take precautions against the climate change
- D) stop the habitat destruction for all animals

TEST 2

1. Gareth:

Tina: They are cold-blooded animals. For example; lizards, crocodiles, etc.

Find the correct question to complete the dialogue.

- A) Did you see any wild animals?
- B) What does cold-blooded mean?
- C) What kind of animals eat leaves?
- D) What do you know about reptiles?

2.

Every animal plays a role in the ecosystem, so losing one species can affect many others. Because there seems to be an ecological balance between all animals in nature. Sum up, we can say that

Which option is the best to complete the blank in the paragraph above?

- A) all animals have important roles in the ecosystem
- B) only wild animals are important for the food chain
- C) animals don't have a key role in the ecosystem
- D) animals are hunted by people for the balance of the nature

3.

Name: Black Rhino
Length of Life: 40 - 50 years
Kind: mammal / herbivore
Population: only 5000
Weight: 800 - 1,350 kg
Habitat: Africa
Size: 2 meters
Food: plants

According to the information card above, we can say about black rhinos that

- A) they aren't in danger of extinction
- B) they don't give their babies
- C) they are enormous land animals
- D) they have a very short lifespan

4.

The loggerhead sea turtles, also known as loggerheads, are a species of marine reptile. They get their name because of their large heads. They usually live around Indian and Pacific Oceans. They choose beaches to breed their eggs. They eat fish, squid, jellyfish, crabs and other small sea animals. They can live 30 to 50 years or more, but they are in danger of extinction. The main reason of their extinction is global warming.

According to the information above, which option is not correct?

- A) They are a type of turtle that live in the oceans.
- B) They are both carnivores and reptiles.
- C) They are becoming extinct because their lifespan is short.
- D) They can't give birth their babies.

5. Andy: I watched a documentary about cheetahs last night. They are the fastest animals in the world. Do you know that?

Mark: No, I don't.?

Andy: They live in East and South Africa's jungles.

Fill in the blank with the correct option.

- A) Are they mammals B) Where do they live
- C) What do they eat D) Are they becoming extinct

6. Many species of animals are extinct such as pandas, tigers and birds. People are responsible for the extinction of these animals because

Which expression is not completed the blank in the paragraph above?

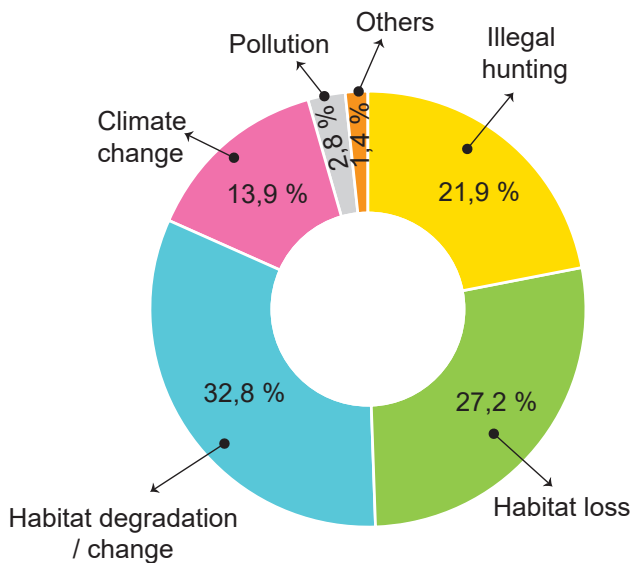

- A) humans hunt wild animals for their fur, skin or meat
- B) humans destroy the habitats of these animals
- C) humans cut down trees in forests and pollute the environment
- D) humans vaccinate animals against some diseases

7. An eagle is a kind of birds of prey. It has large wings and sharp eyesight that is called eagle eye. Also, it has a heavy –beak. It only eats meat and that makes it a good hunter. It can kill even small antelopes.

Which of the following can be correct according to the information about eagles?

- A) They are strong herbivores with their large wings.
- B) They kill even larger animals while hunting.
- C) Their beak is heavier than most of other birds of prey.
- D) They have excellent eyesight.

8. Professor Harvey conducted a study on the reasons of extinction of animals. This graphic below shows the results of his study.

Which option can we say according to the graphic above?

- A) The main reason of animal extinction is to loss their habitats.
- B) Destruction of their habitats plays the biggest role in the extinction.
- C) Pollution has more effects than climate change in the extinction.
- D) In the extinction, illegal hunting doesn't play an important role at all.

9. Abraham: People overhunt some animals for their meat, skin or medicine.

Darren: What does "overhunt" mean?

Abraham: It means

Complete the blank with the appropriate option.

- A) killing an animal for different reasons extremely
- B) keeping an animal safe from harm or damage
- C) a place to protect animals from dangers
- D) destroying all animals' natural habitats

10. Wanda:

Paul: We should stop destroying forests and plant a lot of trees. Because forests and jungles are natural habitats for many kinds of animals.

Complete the dialogue with the correct question.

- A) Why do people kill animals
- B) What do people hunt in the forests
- C) What should we do to protect animals
- D) How can we keep the seas clean

11.

Which slogan is not suitable for the board above?

 - C) Jeremy often goes everywhere by his car.
 - D) Molly takes part in tree planting days every year.
3. If you want to save the environment, you should

Complete the sentence with the suitable option.

- A) waste water and energy
- B) cut down more trees
- C) use your own car too often
- D) use renewable energy resources

4. Charlotte and her school friends are talking about what they can do to protect the environment.

Charlotte: We can stop using fossil fuels for heating.

William: We can put the rubbish on the streets.

Kaitlyn: We can buy energy saving light bulbs.

Jonathan: We can use natural pesticides.

Hailey: We can keep the seas, rivers and lakes clean.

According to the speeches above, whose opinions are related to the same environmental problem?

- A) William – Jonathan
- B) Kaitlyn – Hailey
- C) Charlotte – William
- D) Jonathan – Kaitlyn

5. Here is Sofia's to do list to save the planet:

- ✓ Turn off the lights when not in use.
- ✓ Plant more trees that you can.
- ✓ Reduce, reuse and recycle.
- ✓ Put your garbage into the bins.

In her to do list, there is **no** precaution for

- A) global warming
- B) deforestation
- C) energy waste
- D) water pollution

6. Today, we have many environmental problems. People cut down thousands of trees for different reasons, but these trees are necessary because they provide oxygen and fresh air for us.

Which environmental problem is mentioned in the text above?

7. Air pollution is the release of harmful gases into the atmosphere. In many countries, it is the leading cause of death. An estimated seven million people die every year from indoor and outdoor air pollution. We must take action to prevent it.

Which option is not appropriate to fill in the blank?

- A) We mustn't use too much chemicals on farms to kill harmful insects.
- B) We mustn't throw rubbish on the streets and use plastic materials.
- C) We must use fossil fuels to heat in our homes instead of other energy sources.
- D) We must cycle to work and school, and walk for short distances.

8.

Pollution is when we harm the Earth in different ways. It is a big problem today, and we are responsible for it. We make the oceans, air, and land dirty. Sadly, many of us don't know enough about these problems. Our actions upset the natural balance, and we're hurting the environment. We must say "stop" and try our hardest to fix this before it's too late.

The text above tells us that

- A) humans don't play a big role in any environmental issues
- B) environmental problems are not the results of human activities
- C) human activities have no bad impacts on the environment
- D) human activities cause pollution and it's damaging the Earth in various ways

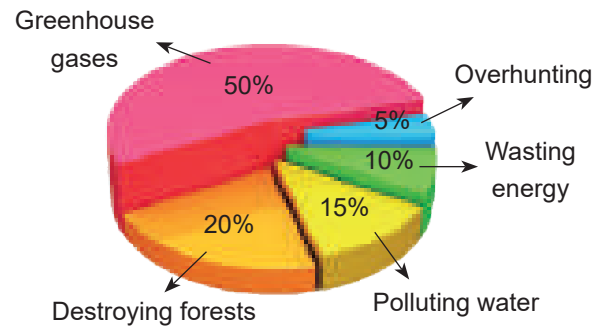

9.

- It has bad effects on life and causes genetic problems for humans and animals.
- People can't breathe easily because of the vehicles' exhaust fume.

Which environmental problems are related to the results given above?

- A) Nuclear waste – Air pollution
- B) Deforestation – Water pollution
- C) Global warming – Land pollution
- D) Pesticides – Noise pollution

10. The graphic below shows the results of a survey on the reasons of environmental problems.

Which of the following is not correct according to the graphic above?

- A) Destroying forests is more harmful than wasting energy.
- B) Greenhouse gases are the most serious problem for the environment.
- C) Overhunting is the lowest negative effect on the environment.
- D) Water pollution is the least important problem compared to the other reasons.

11. English teacher, Mrs. Hope wrote down some reasons for an environmental problem on the board and asked her students to find solutions. Here are the reasons and her students' solutions:

Tina: We should turn off the lights when we don't need.

Frank: We shouldn't throw our litter into the seas.

Katie: We should use public transportation more.

Logan: We should recycle waste materials.

Who offers a suitable solution for the environmental problem on the board?

- A) Tina
- B) Frank
- C) Katie
- D) Logan

12. To recycle, we should our garbage and put it into different boxes.

Choose the correct word for the blank.

- A) throw
- B) classify
- C) prevent
- D) waste

TEST 2

Çözümler için
karekodu
okutunuz

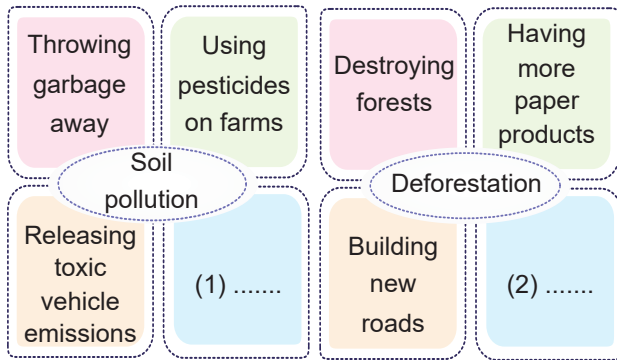

1. We should use paper efficiently. For that, we should use both sides of a sheet of paper. We should be eco-friendly and use recycled items such as notebooks, books and shopping bags. These suggestions are very important to

Which option completes the blank correctly?

- A) continue destroying forests
- B) save the forests
- C) cut down a lot of trees
- D) cause deforestation

2. You see the words in the visuals below that each of them has a relationship with each other.

Choose the option that completes the blanks in the visuals above correctly.

1

2

- | | |
|---------------------------|---------------------|
| A) Industrial waste | Getting more land |
| B) Animal extinction | Chemical fertilizer |
| C) Greenhouse gases | Planting trees |
| D) Smoke of the factories | Recycling |

3. Be careful about the use of energy. Overusing the energy sources causes both climate change and higher energy costs. That's why Stop energy waste to save the world and your money.

Choose the appropriate option to complete the blank.

- A) you never have higher bills to pay
- B) you should leave your TV on standby
- C) you don't have to pay more money
- D) you must use energy sources carefully

4.

What should we do for our environment?

- ◆ We must use pesticides carefully in agriculture.
- ◆ We should recycle paper, glass, metal and plastic materials.
- ◆ We must protect green areas, especially rainforests.
- ◆ We have to start using public transportation instead of our private cars.
- ◆

Which one is suitable for the blank in the list above?

- A) We mustn't think the ways of protecting the balance of the nature.
- B) We must use renewable energy resources such as wind and solar.
- C) We must hunt wild animals and give harm to their habitats.
- D) We mustn't stop cutting down the trees and destroying forests.

5.

There are many simple things you can do to save the Earth. For example, you can

Find the option that is not suitable for the blank.

- A) stop using plastic products
- B) remember the three Rs: reuse, reduce and recycle
- C) save the Earth's natural resources
- D) cut down and destroy the trees

6.

Deforestation is clearing the Earth's forests and damaging to the quality of the land. In this way, the habitats for millions of species are lost. However, oxygen in the air decreases, greenhouse gases enter the atmosphere and the temperature of the Earth increases because of deforestation. I think it is one of the most serious problems of the world.

Katie

In Katie's speech, she is talking about

- A) the results of destroying forests
- B) what to do for saving the forests
- C) the effects of deforestation on people
- D) how people prevent deforestation

7. Everyone wants to live in a healthy environment but unfortunately, people pollute their environment with their garbage, cars' exhaust gases, harmful products, etc. If we want to have a good future, we should keep our environment clean. For that,

Which option is not appropriate to fill in the blank?

- A) everyone must use eco-friendly products and eat organic food
- B) each person has to plant trees and save forests
- C) people should turn on the lights when they aren't at home
- D) people should walk or cycle to work and school

8.

.....

- ✓ Use less water and energy.
- ✓ Don't cut down trees.
- ✓ Use water, wind and solar energy.
- ✓ Don't pour harmful chemicals into the rivers.
- ✓ Recycle waste materials.

Find the best title for the table above.

- A) How To Protect The Environment
- B) How To Prepare An Environmental Campaign
- C) Environmental Problems In The World
- D) Main Reasons Of Global Warming

9. We must protect the environment. We can do many things for that. For example, we can use renewable energy sources like solar, wind and water. Also, we can recycle paper, glass, plastic and metal items. We can stop destroying forests.

Which one is not mentioned in the text above?

A) 	B) 
C) 	D) 

10.

JOIN OUR CAMPAIGN AT BENTON PARK

- 📢 Plant a tree and help make our park green.
- 📢 Get the seeds and water them after planting them.
- 📢 Saturday, 8th June from 11 a.m. to 5 p.m.

According to the poster above,

- A) some people are organizing a clean-up day in Benton Park
- B) you have to get a seed before you come to Benton Park
- C) you can join the event every Saturday between 11 a.m. and 5 p.m.
- D) the owner of the campaign will plant all the seeds

11. **Lauren:** Do you know how to make natural cleaners at home?

Mandy: Yes, I do. You need the washing soda, soap, baking soda and warm water to make your natural cleaner at home.

Lauren: What is the process of it?

Mandy:, mix the washing soda and the borax in a bottle., add some soap in it., put some warm water and shake them all together.

Which option completes the blanks respectively?

- A) First – Finally – Then B) First – Then – Finally
- C) Then – Finally – First D) Finally – Then – First

12. (I) I think planting a tree is a very enjoyable activity. (II) It is also so boring because when you plant a tree, you have to wait for years to come it. (III) Every spring, I find a suitable place to plant a tree in our garden. (IV) I dig a hole and put my tree into the hole gently and cover the hole with soil.

Find the sentence that disrupts the meaning of the text above.

- A) IV B) III C) II D) I

TEST 3

Çözümler için
karekodu
okutunuz

1. **Mother:** Switch off the TV and your computer when you don't use them, honey. And also you should turn off the lights when not in use. If you want to protect the environment, you

Brendon: OK, mom. You're absolutely right.

Choose the suitable option for the blank.

- A) should waste more energy
B) mustn't use energy saving devices
C) should be careful about the use of energy
D) don't have to do anything to save energy
2. If you are an eco-friendly person, you should when you leave your room.

Which one completes the blank correctly?

- A) turn off the lights
B) not unplug your computer
C) switch on the lights all day
D) waste energy all the time
3. **Robert:** Which precautions should we take to protect the world?

Emily: We should plant new trees and use eco-friendly products.

James: We should use public transportation more than our private cars.

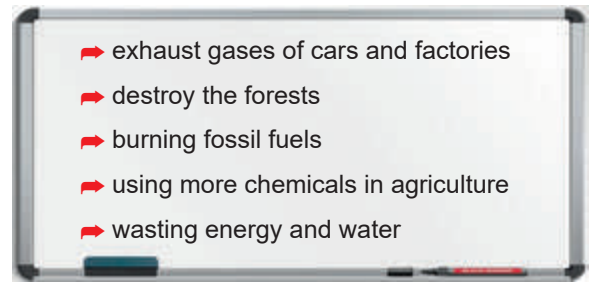

Paige: We shouldn't unplug our electronic devices when we don't use them.

Nick: We should use alternative energy and save electricity.

Whose suggestion is not appropriate for Robert's question?

- A) Paige B) Nick C) Emily D) James

4. Mr. Fox, a science teacher, wrote down some reasons for an environmental problem on the board and asked his students to find solutions. Here are the reasons and the solutions of the students:

William: We should plant more trees and save green areas.

Rachel: We shouldn't drop litter into the seas, rivers and lakes.

Francis: We shouldn't prefer using our private vehicles for transportation more.

Allison: We should buy energy saving light bulbs and have a shower instead of a bath.

Who does not offer a suitable solution for the environmental problem on the board?

- A) William B) Rachel C) Francis D) Allison

5. Wild animals are becoming endangered because We must protect them for the balance of the nature.

Complete the blank with the suitable option.

- A) they can live everywhere on the planet
B) they often move to another place to live
C) they are losing their natural habitats
D) they can adapt to new areas easily

6. Carbon dioxide is a kind of harmful gas, but unfortunately it is increasing in the air day by day. So, we

Choose the appropriate option for the blank.

- A) have to drive for short distances
B) must go everywhere by our own cars
C) must build new lots of factories
D) have to use public transportation more

7.

Big cities are getting worse day by day because of air pollution. Chemicals from cars and factories pollute the air too much. We also cut down all the trees in our forests to build more constructions, and we pour our waste into the rivers, lakes and seas. Our planet need our help, so we have to do our best.

According to the text above,

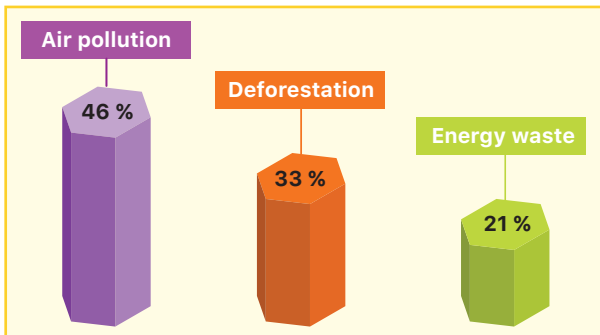

- A) humans don't disturb the balance of life on the Earth
- B) a large number of trees aren't disappeared by human beings
- C) people take necessary precautions to protect the Earth
- D) the air we breathe is full of chemicals from cars and factories

8. We should glass, plastic, metal and paper to protect the nature.

Complete the sentence with the correct word.

- A) waste B) recycle C) threaten D) increase

9. This graphic below shows the leading reasons of global warming in the world.

According to the information and the graphic above,

- A) people use more renewable energy sources like wind, solar and water energy
- B) destruction of forests has at least negative effect on global warming
- C) the harmful gases into the air are the main reason of global warming
- D) people are using energy sources in the world more efficiently these days

10. **Chris:** Hey, Leonardo. Look at this announcement. Our school is organizing a 'Save The Environment' campaign at Sandy Beach tomorrow. Why don't we take part?

Leonardo: Great idea.

Chris: You're absolutely right.

Fill in the blank with the suitable option.

- A) We must keep our environment clean.
- B) We don't have to help make the environment clean.
- C) We don't have to use recycling bins to sort out our rubbish.
- D) We mustn't put our garbage in the bin.

11. Eleanor thinks planting more trees is very important to save the world. The pictures below show the steps of how she plants a tree.

1

2

3

4

Which of the following sentences is not related to one of the pictures above?

- A) She digs a hole with a shovel in the soil.
- B) She places the tree in the hole carefully.
- C) She gets a tree and a shovel for planting.
- D) She selects a proper place for the tree.

12. **Ryan:** Our forests are disappearing day by day because we are destroying thousands and thousands of trees on our planet.

Avery: I think you're absolutely right. We must

Complete the blank with the suitable option.

- A) continue to cut down the forests
- B) destroy rainforests to get more land
- C) use more plastic products and paper
- D) protect nature for the balance of life on the Earth

TEST 1

Çözümler için
karekodu
okutunuz

1.

Which of the following option is correct according to the visual above?

- A) There is only one planet smaller than Mercury.
- B) Jupiter is the largest planet in the solar system.
- C) Uranus is bigger than Saturn and Neptune.
- D) Mars is closer to the Sun than Venus and Earth.

2.

There are eight planets in our solar system. Their names are Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune. These planets have satellites except Mercury and Venus. Mercury is the smallest and the nearest planet to the Sun. Jupiter is bigger than other planets.

Find the question that does not have an answer in the paragraph above.

- A) How many planets are there in the solar system?
- B) What is the largest planet in the solar system?
- C) What are the planets' names in the solar system?
- D) Which planet is the farthest from the Sun?

3. **Oliver:** There are eight planets in the solar system, but our planet, Earth is the only habitable one.

Kristen: What do you mean by that?

Oliver: I mean that

Choose the suitable option to complete the dialogue above.

- A) Earth is the third closest planet to the Sun
- B) it is a satellite because it moves around the Sun
- C) none of the other planets has life on it
- D) Earth is the fifth largest planet in the solar system

4.

A comet is a small chunk of dust and ice that orbits, or travels around, the Sun. It is sometimes described as a “dirty snowball”. There are billions of comets in the solar system, but most never pass close by Earth. The best-known comet is called Halley’s Comet. It is named after Edmond Halley (1656–1742), an English astronomer, who predicted the comet’s return. Scientists took a close look at its nucleus with telescopes for the first time in 1986. It can be seen from Earth about every 76 years. When it is near, it can be seen with the naked eye. It will return in 2061.

We can understand from the text that

- A) people can see Halley’s Comet in every 76 years without a telescope
- B) Halley’s Comet moves along an oval orbit around the Sun
- C) Halley’s Comet is made of only dust, so it is called as a dirty snowball
- D) scientists saw Halley’s Comet for the first time one hundred years ago

5.

Planets	Distance from the Sun	Average temperature
Earth	150 million km	14°C
Venus	108.2 million km	460°C
Saturn	1.427 million km	-178°C

According to the chart above,

- A) Venus isn’t closer to the Sun than Saturn
- B) Earth is colder than Venus and Saturn
- C) Saturn is the hottest planet among them
- D) Earth is farther from the Sun than Venus

6.

Mercury is the planet in our solar system. All other planets are bigger than Mercury. It is only slightly larger than Earth’s moon.

Fill in the blank with the correct option.

- A) smallest
- B) largest
- C) hottest
- D) nearest

7. Mars is often called the “Red Planet” because of its reddish appearance and has a day length similar to Earth’s. However, its year is longer, lasting about 687 Earth days. Jupiter is the largest planet and rotates very quickly, with a day lasting only about 9.9 hours. Its year is much shorter than Earth’s, approximately 11.9 Earth years.

Which of the following cannot we say according to the information above?

- A) Mars appears in the sky as a reddish star.
- B) There are no planets bigger than Jupiter.
- C) A day on Jupiter is longer than a day on Mars.
- D) A year on the Earth is shorter than a year on Mars.

8.

Venus is closer to the Sun than Earth. Its temperature can go up to 465°C. That makes it the hottest planet in the solar system. It is similar to Earth in terms of size and composition, but it has a thick, cloudy atmosphere that traps heat and makes it extremely hot.

In this text, you can find out the information about

- A) the equator length of Venus
- B) the average temperature of Venus
- C) the distance of Venus to the Sun
- D) the reason why Venus is the hottest planet

9. **Jamie:**

Aaron: Neptune is the eighth and farthest planet from the Sun in our solar system. It’s a gas giant and has a vivid blue color. It’s a very cold planet.

Which question does Jamie ask Aaron?

- A) Why is not Neptune a hot planet?
- B) What do you know about Neptune?
- C) Is Neptune the closest planet to the Sun?
- D) What’s the order of Neptune in the solar system?

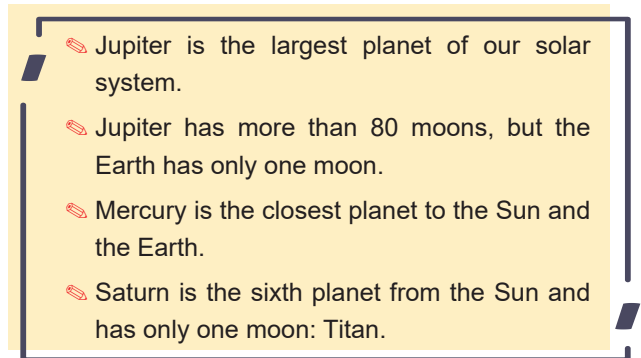

10.

Dwarf planets	Year of discovery	Diameter (km)
Ceres	1801	940
Pluto	1930	2,377
Haumea	2003	1,960
Eris	2003	2,326
Makemake	2005	1,430

Which of the following is correct according to the information in the table above?

- A) Astronomers discovered Makemake earlier than the other planets.
- B) Pluto and Eris are smaller than the other dwarf planets.
- C) Ceres is not the smallest dwarf planet among all the dwarf planets.
- D) Scientists discovered Haumea and Eris in the same year.

11.

- ✍ Jupiter is the largest planet of our solar system.
- ✍ Jupiter has more than 80 moons, but the Earth has only one moon.
- ✍ Mercury is the closest planet to the Sun and the Earth.
- ✍ Saturn is the sixth planet from the Sun and has only one moon: Titan.

It is clear from the information above that

- A) Saturn isn’t farther from the Sun than Mercury
- B) Earth’s diameter is bigger than Jupiter’s diameter
- C) Earth and Saturn has the same number of moons
- D) there are other planets larger than Jupiter

12. NASA launched the Kepler telescope to in 2009. The Kepler team discovered five new planets, as big as the Earth, beyond our solar system.

Fill in the blank with the most suitable option.

- A) find the proof of life in space
- B) explore habitable planets
- C) observe the Earth from space
- D) travel around other planets

TEST 2

Çözümler için
karekodu
okutunuz

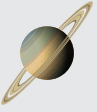

1. Rick:

Kevin: Jupiter. A day on it is less than 10 hours.

Fill in the blank with the correct option.

- A) Which planet has the longest year?
- B) Which is the biggest planet?
- C) Which planet has the shortest day?
- D) Which planet is the smallest?

2.

	 Saturn	 Uranus
Diameter	120,536 km	51,118 km
Average Temperature	-178°C	-224°C
Number of moons	62	27

Look at the table above and find the comparison that is not correct.

- A) Uranus is colder and smaller than Saturn.
- B) Saturn has got more moons than Uranus has got.
- C) Uranus has got a longer diameter than Saturn has got.
- D) Saturn is hotter and bigger than Uranus.

3.

- I. I learnt a lot of things from the officials and decided to choose astronomy as a career.
- II. I also observed the sky with a telescope there and it was an amazing experience for me.
- III. Yesterday was quite a tiring but an extraordinary day for me.
- IV. I went to TÜBİTAK National Observatory to get information about planets, asteroids and comets for my science project.

Put the sentences into the correct order to make a meaningful text.

- A) III – IV – I – II
- B) III – I – II – IV
- C) IV – III – II – I
- D) II – IV – I – III

4.

Space Tourists		
Name	Year	Duration of Flight
Dennis Tito	2001	8 days
Gregory Olsen	2005	11 days
Richard Garriott	2008	12 days

According to the table above, which of the following option is not correct?

- A) Dennis Tito went into space earlier than Richard Garriott.
- B) Gregory Olsen travelled into space later than Richard Garriott.
- C) Richard Garriott spent more days in space than the other tourists.
- D) Both of them travelled as space tourists in different years.

5.

Venus is hotter than the Earth. Orbit period of Venus is 224 Earth days. The equator length of Venus is 12,103 km, but the Earth's is 12,742 km. The Earth has a life form, but Venus doesn't.

According to the information above, which option is not correct?

- A) The Earth's surface temperature is lower than Venus'.
- B) A year on Venus is longer than a year on the Earth.
- C) The Earth is larger than Venus in the solar system.
- D) Nobody lives on Venus, but there is life on the Earth.

6.

Mercury	Venus
Temperature: 427 °C	Temperature: 462 °C
Diameter: 4.900 km	Diameter: 12.100 km
Orbital period: 88 days	Orbital period: 224.7 days

According to the information card above,

- A) Mercury is hotter than Venus
- B) Mercury is larger than Venus
- C) Venus' orbital period is longer than Mercury's
- D) a year on Venus is shorter than a year on Mercury

7.

Our planet Earth is the third planet from the Sun. It is the only habitable planet that people, animals and plants live. It has water on its surface and this water is very, very important for all living beings. There is no life on other planets.

Which of the following questions does not have an answer in the text above?

- A) Which planet comes after the Earth in the solar system?
 - B) Why is the Earth so important for all the living beings?
 - C) Which planet has appropriate living conditions for humans?
 - D) Is the Earth closer to the Sun than the other planets?
8. Earth's orbit is shorter than Mars' orbit, so a year on Earth is

Which expression is suitable for the blank?

- A) longer than a year on Mars
 - B) the shortest year in the solar system
 - C) as long as a year on Mars
 - D) shorter than a year on Mars
9. (I) Jupiter is the largest planet in the solar system and is the fifth planet from the sun. (II) It is home to a number of interesting moons including Ganymede, Io, Europa, and Callisto. (III) Galileo discovered these four moons first, so they are called the Galilean Moons. (IV) There are eight planets in the solar system, but the only place in the known universe confirmed to host life is Earth.

Which of the sentences disrupts the meaning of the paragraph above?

- A) I B) II C) III D) IV

10. Mars is the closest planet to Earth. If you have a telescope,

Find the appropriate option to fill in the blank.

- A) you can observe Mars easily
- B) its atmosphere is different from Earth's
- C) Mars has two small satellites
- D) the gravity on Mars is less than Earth's

11.

Planet	Diameter	Average Temperature	Number of Moons
Mars	6,779 km	-63°C	2
Saturn	120,536 km	-178°C	62
Neptune	49,244 km	-214°C	14

Which of the following option is false according to the table above?

- A) Saturn is the biggest of all.
- B) Mars is the coldest of all.
- C) Neptune is not larger than Saturn.
- D) Mars is smaller than the others.

12.

Valentina Vladimirovna Tereshkova was born in Maslennikovo, near Yaroslavl, in Russia on 6 March 1937. She was a Soviet cosmonaut. At the time of her selection as a cosmonaut, she was working as a textile worker in a local factory. She is the first woman and the youngest astronaut to ever fly into space. She had a solo mission with the spacecraft called Vostok 6 on June 16, 1963. She was just 26 years old when she made her historic flight. She orbited Earth 48 times and spent 70 hours 50 minutes in space. She landed back on Earth on June 19th, 1963.

According to the text above, we can say that

- A) there is only one woman cosmonaut who travelled in space
- B) she went on working as a worker after she became an astronaut
- C) there are other female cosmonauts who completed solo space flights
- D) she completed her mission after spending almost three days in space

TEST 3

Çözümler için
karekodu
okutunuz

1. Venus is the planet in our solar system and sometimes you can see it with the naked eye if you know where to look.

Fill in the blank with the appropriate option.

- A) smallest B) brightest
C) darkest D) biggest

2.

An astronomer, Clyde Tombaugh discovered Pluto on February 18, 1930, and scientists considered it as the ninth planet from the Sun. After 1992, researchers explored several objects of similar size of Pluto around its orbit. Scientists classified Pluto as a dwarf planet after 2006 because it hasn't got the characteristics of a real planet. Today, there are five dwarf planets in the solar system. They are Pluto, Eris, Haumea, Makemake and Ceres.

According to the text above, which of the following sentence cannot we say?

- A) Clyde Tombaugh was the discoverer of a dwarf planet called Pluto.
B) Scientists didn't class Pluto as a planet after 2006.
C) Today, Pluto is considered as a dwarf planet by scientists.
D) Scientists didn't discover any dwarf planets except Pluto.
3. There are eight planets in the solar system. The last planet in the solar system is Neptune, so it is the coldest all of other planets. The average surface temperature is -201°C . It is the fifth smallest planet in the solar system.

It is clear from the information above that

- A) Neptune isn't farther to the sun than the other planets in the solar system
B) there is no planet in the solar system closer to the sun than Neptune
C) other planets in the solar system are not hotter than Neptune
D) there are three planets in the solar system larger than Neptune

4. Size is important about gravity. If a planet is smaller than the Earth, it has got weak gravity. Otherwise, there is very strong gravity if a planet is Uranus-sized.

Planets	Equator length
Earth	12,742 km
Jupiter	139,822 km
Saturn	116,464 km
Mercury	4,8794 km
Mars	6,779 km

We cannot understand from the information and the table above that

- A) there is weaker gravity on Mercury than on the Earth and Mars
B) Saturn and Jupiter have got stronger gravity than the Earth has got
C) Mars has got the weakest gravity, so people weigh the least on Mars
D) a person weighs the most on Jupiter because it has the strongest gravity

5.

Planet	Diameter	Orbit period
Mars	6,779 km	1.9 years
Earth	12,742 km	365.26 days
Venus	12,103 km	224.70 days
Mercury	4,8794 km	88 days
Jupiter	139,822 km	11.9 years

According to the table above, which of the following option is correct?

- A) Mercury is bigger than Mars, but smaller than Venus and Earth.
B) A year on Earth is much longer than a year on Mercury.
C) The orbit period of Jupiter is shorter than the orbit period of Mars.
D) Venus is smaller than Jupiter, but its orbit period is longer than Jupiter's.

6. Göktürk 2 is an earth observation satellite by built TÜBİTAK Space Technologies Institute. It is 409 kg in weight. It was launched at 16.12 on December 18, 2012. The launch was completed perfectly and it was placed into a low Earth orbit at 16.26. It sent the first signal at 17.39. Its orbital time is 98 minutes. It provides images for both civil and military applications.

Find the question that does not have an answer in the paragraph above.

- A) What is Göktürk 2 used for?
- B) How long is Göktürk 2's orbital time?
- C) When was Göktürk 2 launched?
- D) How many times does it send signals a day?

7. **Patricia:** What do you know about our planet, the Earth?

Michelle: I know a lot of things about the Earth. For example,

Which of the following sentence is not available to complete the dialogue?

- A) it is a planet that has an atmosphere
- B) it has liquid water on its surface
- C) it is a planet that has no life on it
- D) it has suitable conditions for all the living beings

8. **Kerry:** Please tell me, Jonathan. Is there any water on the surface of Mars?

Jonathan: To find this question's answer, NASA launched two robot explorers to Mars in 2003. Because there were rivers and seas on it many years ago.

Choose the appropriate option for the blank in the dialogue above.

- A) They discovered the evidence of water.

www.ortaokuldata.com Dijital Eğitim Platformunun tanıtım ve kullanım videoları için karekodu okutunuz.

Dijital Eğitim Platformunda Neler Var?

Bu seti alan öğretmen ve öğrencilerin tamamı Dijital Eğitim Platformuna sınırsız sahip olacaktır. Dijital Eğitim Platformunda

- Deneme sınavları çözme,
- Soru çözme,
- Konu çalışma,
- Yapay zeka destekli istatistiksel raporlar alma,
- Süreç odaklı dijital öğrenci takip sistemi,
- Ders kitabının dijital içerikleri,
- Akıllı tahta uygulamaları

gibi birçok özelliğe sahiptir.

Dijital Eğitim Platformu Nasıl Kullanılır?

- Öğretmenin sisteme üye olması
 1. Öğretmen kendisi ortaokuldata.com'dan üyelik yapabilir.
 2. 0 (542) 262 03 37 whatsapp hattından yardım olarak üyelik yaptırabilir.
- Öğretmen, öğrenci listesini sisteme girdikten sonra öğrencilerin kullanıcı adı ve şifreleri otomatik oluşturulacak veya öğrenci listesini 0 (542) 262 03 37 whatsapp hattına göndererek sistem tarafından öğrenci şifreleri oluşturulacaktır.
- Öğrenci, öğretmeninden alacağı şifre ile sisteme giriş yapabilecektir.

* Sınırsız kullanım süresi 1 eğitim-öğretim yılıdır.

Ayrıca “ETKİNLİK” Fasikülünü de Deneyimleyiniz.
